**MEETING SUMMARY OF THE
ATLANTIC STATES MARINE FISHERIES COMMISSION**

Legislators and Governors' Appointees

October 29, 2013

72nd Annual Meeting

Saint Simons Island, Georgia

The Commission's Legislators and Governors' Appointees met to discuss disclosure of related interests and receive a federal legislative update. The Legislators and Governors' Appointees elected Dennis Abbott and Dr. Malcolm Rhodes to serve as the respective chairs and Representative Walter Kumiega and G. Ritchie White to serve as their respective vice-chairs.

Election of Chairs:

- Dennis Abbott was elected to serve as the Legislator Chair for a one year term.
- Malcolm Rhodes was elected to serve as the Governors' Appointee Chair for a two year term.
- Walter Kumiega was elected to serve as the Legislator Vice Chair for a one year term.
- Ritchie White was elected to serve as the Governor's Appointee Vice Chair for a one year term.

Note: all votes were unanimously in support.

Discussion on Conflict of Interest Disclosure:

The Legislators and Governors' Appointees reviewed the draft financial disclosure form. A number of issues were discussed and some specific recommendations and concerns were recommended to be referred to the Executive Committee. Most comments were focused on the following options for Commissioner/Proxy recusal in the case of a ten percent interest in a Commission related industry.

Option 1: Commissioner/Proxy may no longer sit at the table as a participating board/section member. The Commissioner will not participate in the discussion on an issue and in the state caucus prior to a vote. The Commissioner can comment from the public microphone if recognized by the Chair during the public comment portion of the agenda.

Option 2: Prior to the discussion of an issue, the Commissioner/Proxy must announce to the Board that he/she is recusing himself/herself from participating in the caucus on voting. Once recused, the Commissioner/Proxy will be able to participate in the deliberations but will not be able to make or second motions on the issue. (This option is similar to the regional council process.)

Following is a summary of the discussion:

- Roy Miller noted that he is concerned about his personal information being posted online. His concerns were addressed and he was satisfied that the information made public will be limited to basic information on interests that coincide with Commission issues.
- Tom Fote was concerned that he already fills out extensive financial disclosure paperwork for his state and is not interested in filling out redundant paperwork for the Commission. He also noted that his proxy fills out the same disclosure that he does, and he is in support of option two.
- Mitch Fiegenbaum noted that he has been already been recused per option one and believes option two would be fairer. He noted that the Pennsylvania State House and Senate have both decided they want him to represent their state knowing full well his financial interests.
- Pat Augustine noted states aren't always aware when a proxy is appointed, and this form does a good job of showing the Commission is doing its due diligence. He also noted his support for option two.
- Malcolm Rhodes recommended the document's title be changed to a "Statement of Related Interest," noting that the Commission needs representatives from within the industry. The proposed change was widely supported.
- Craig Miner recommended the disclosure form include spouses and other family members, and that Administrators should also be required to fill out a disclosure.
- Steve Train noted that he would like a section added for Commissioners and Proxies who work for non-governmental organizations.
- Ritchie White stated that Commissioners who have already filled out state disclosures satisfying the Commission's minimum requirements should be able to send those forms to the Commission in lieu of filling out the Commission form.
- Jocelyn Cary stated she supports option one because she believes it increases the Commission's credibility.
- Loren Lustig was not satisfied with option one because he believes the phrase "as time allows" could be used to silence recused Commissioners/Proxies.
- Bill Goldsboro stated he works for a non-governmental organization and supports Steve's comment to make it another category.
- Phil Boyles noted he Chairs the New York ethics Committee and supports option two. "Disclosure it what's important. We still get the benefit of their expertise."
- Adam Nowalski requested that a third option for recusal be considered. That option would require Commissioners to declare their interests, but would still afford them the ability to vote.
- Pat Augustine noted he supports option two.

At the end of the discussion, the Legislators and Governors' Appointees voted to recommend to the Executive Committee that option one be used in the disclosure form. Commissioners voted as follows:

- Abstentions: Adam Nowalski and Bernie Pankowski
- Option two: one vote – Jocelyn Cary
- Option one: everyone else

Other Business:

- Ritchie White recommended that the Commission purchase an AED and have staff strained in its use. A number of Commissioners noted they are currently trained to use an AED. Note: AEDs range in price from \$500 - \$2000 on average.
- Ritchie White also requested the Legislators and Governors' Appointees be part of the Executive Director Review.

Re: Federal Legislative Tracking Sheet: 113th Congress, 2nd Session

Please find attached an update on federal fisheries legislation impacting the Commission, as well as tables providing summary information of key federal legislation introduced in the 113th Congress.

This document will be updated quarterly or as key bills are introduced or acted on. The document is not intended to summarize all legislation that might affect oceans and coasts, nor does it list the complete contents of bills. To access the complete text of the bills as well as the Library of Congress summary, click on the links below the titles provided in the table. If there is a particular bill not included here that you would like summarized or if you would like more information on bills listed, please contact Deke Tompkins (dtompkins@asmfc.org).

Federal Legislative Update

Dingell-Johnson Sport Fish Restoration Program 2013 Sequester Amounts Returned

The Department of Interior announced in March that it will release \$18.5 million in Sport Fish Restoration Trust Fund funding that was withheld in 2013 as a result of the sequester. The total disbursement for 2014 totals \$325.7 million, including the sequestered amount from 2013. The 2014 disbursement is \$34.1 million lower than 2013 due to lower domestic fishing equipment excise tax receipts. Following are the 2014 apportionments of the 15 ASMFC member states:

Maine	\$11,420,465	Delaware	\$7,752,281
New Hampshire	\$7,752,281	Maryland	\$10,458,232
Massachusetts	\$10,516,201	Virginia	\$19,046,390
Rhode Island	\$7,752,281	North Carolina	\$29,553,173
Connecticut	\$8,715,486	South Carolina	\$14,857,369
New York	\$28,467,902	Georgia	\$23,306,448
New Jersey	\$10,516,201	Florida	\$24,404,776
Pennsylvania	\$35,731,360		

The Sport Fish Restoration Program provides grant funding directly to states for fishery projects, boating access, and aquatic education. It is funded through excise taxes on fishing equipment, motorboat and small engine fuels, and import duties. Funds are distributed to states based on a formula which includes area and the number of paid license holders. Additionally, the Dingell-Johnson Sport Fish Restoration Program requires that each year \$200,000 from the Sport Fish Restoration Trust Fund be allocated to each of the four fisheries commissions. The Sport Fish Restoration Program reimburses up to 75 percent of the cost of each eligible project, while state fish and wildlife agencies contribute a minimum of 25 percent.

Fishing Safety Funding

On April 1, 2014, the House of Representatives passed H.R. 4005, the Coast Guard and Maritime Transportation Act of 2014, which authorizes funding for the Coast Guard for 2015 and 2016. Included in the legislation was a an amendment authored by Rep Bill Keating (D-MA) that reauthorized the Fishing Safety Training and Fishing Safety Research grant programs. The programs, first established in the 2010, provide access to training resources as well as research to improve safety on fishing boats. Rep Keating has also introduced a stand-alone bill, H.R. 4025, the Fishing Safety Training and Research Act, which extends authorizations for both safety training programs through 2025. H.R. 4005 is currently awaiting action in the Senate.

House Natural Resources Committee Chairman to Retire

Rep. Doc Hastings (R-WA), the chairman of the House Natural Resources Committee, announced on February 13, 2014 that he will not seek reelection in 2014. Hastings has represented his Washington district since 2004 and assumed Chairmanship of the Natural Resources Committee in 2011. Hastings' replacement as Chair of the Committee remains up in the air should Republicans hold a majority in the House, as many are currently predicting. The second-ranking Republican, Rep. Don Young (R-AK), has already served the maximum six years as chairman of the committee and is not likely to serve again due to House Republican Conference rules. The committee's third-ranking Republican, Rep. Louie Gohmert (R-TX), is likely to be passed over for the Chairmanship due to his rocky relationship with House leadership. At this point, the front-runner to replace Hastings is Rep. Rob Bishop (R-UT). The race for the next Natural Resources Committee Chair will heat up after the general election in November.

Seafood Sustainability

In December 2013, MAFAC delivered its recommendations for a NOAA sustainable seafood certification program. NMFS is currently accepting public comments on MAFAC's recommendation through May 28, 2014. MAFAC recommends that any certification program focus on a business-to-business certification, with an audited chain-of-custody verification. Of particular note to the Commission, MAFAC recommends that seafood caught in federal waters be certified first, followed by state fisheries, then aquaculture. Additionally, the Senate's draft Magnuson-Stevens Act Reauthorization bill contains provisions for voluntary sustainability labeling. Briefly, a producer, processor, importer, exporter, distributor, or seller could use a "Sustainably Caught" label on any fish product as long as the fishery has a federal FMP; is not being overfished; and meets traceability requirements.

As previously noted, the Commission is concerned that any certification available to federally managed species and not those managed by the states could disadvantage the states from a marketing perspective.

Catch Shares Appropriations Rider

Rep Steve Southerland (R-FL) has requested the FY 2015 Commerce, Justice, Science, Appropriations bill contain a policy rider barring funding for the implementation of new catch share programs. Rep Southerland has championed this rider for the last several years and has also proposed it as an amendment on the House floor. The House and Senate Appropriations Committees have yet to release the text of the 2015 Commerce, Justice, Science, Appropriations bills.

Fluke Fairness Act Included in Senate MSA Reauthorization Bill

Senator Chuck Schumer (D-NY) announced that the Senate MSA Reauthorization bill will include the text of S. 1757 - the Fluke Fairness Act. As previously noted, Senator Schumer introduced the legislation on November 21, 2013. The bill essentially requires the Commission and the Mid-Atlantic Fishery Management Council to adopt a regional management system. Specifically, it would require that the summer flounder FMP be modified within one year to reflect the best available science; consider changes in the migratory behavior of summer flounder in establishing distribution of the commercial and recreational catch quotas; prioritize regional or coastwide management measures for summer flounder that comply with the Magnuson Act's National Standards on equity and fairness; and prohibit the allocation of commercial or recreational catch quotas for summer flounder on a state-by-state basis using historical landings data that do not reflect a state's participation in the current summer flounder fishery.

U.S. Senate Approves Two Treaties to Combat Pirate Fishing

On April 3, 2014, the U.S. Senate approved two international treaties to combat illegal, unregulated, and unreported (IUU) fishing - the Port State Measures Agreement and the Convention on the Conservation and Management of High Seas Fisheries Resources in the North Pacific Ocean.

The Port State Measures Agreement, which the United Nations adopted in 2009, applies to foreign-flagged vessels calling on ports in any country that is a party to the agreement. Under its provisions, port officials who conclude that a vessel has a known or suspected record of illegal fishing would turn away the vessel or subject it to immediate inspection. The Agreement will take effect once 25 parties ratify it; the United States is the 11th party to do so, joining nine other countries and the European Union. The Convention on the Conservation and Management of High Seas Fisheries Resources in the North Pacific Ocean would create an international organization to regulate fishing in international waters of the North Pacific to protect fish habitat.
