MEMORANDUM

TO: Atlantic Herring Management Board, Technical Committee, Advisory Panel, Interested Parties

FROM: Toni Kerns, Fisheries Policy Director *TMK*

DATE: April 8, 2025

SUBJECT: Atlantic Herring Area 1A Days Out Meeting on May 13

Atlantic Herring Management Board members from the states of Maine, New Hampshire and the Commonwealth of Massachusetts will meet via webinar on May 13, 2025 from 1:00 p.m. to 2:30 p.m., to discuss days out measures for the 2025 Area 1A (inshore Gulf of Maine) fishing season. Days out measures can include specification of the number of consecutive landings days, weekly landings limits, and restrictions on at-sea transfers. The webinar and call information are included below:

Atlantic Herring Days Out Meeting

Tuesday, May 13
1:00 p.m. – 2:30 p.m.

You can join the meeting from your computer, tablet or smartphone at the following link: <https://v.ringcentral.com/join/768237723>. If you are new to RingCentral, you can join from a web browser or you can download the app ahead of time ([click here](#)). For audio, the meeting will be using the computer voice over internet (VoIP), but if you are joining the webinar from your phone only, you can dial in at +1 (650) 419-1505 and enter access code **768-237-723** when prompted. The webinar will start at 12:45 p.m., 15 minutes early, to troubleshoot audio as necessary.

Federally-permitted Herring Category A vessels must declare into the Area 1A fishery at least 45 days prior to the start of the fishing season. Small-mesh bottom trawl vessels with a federal Herring Category C or D permit must declare into the Area 1A fishery by June 1, 2025. Vessels should check with each state of landing regarding their notification procedures.

The 2025 Area 1A sub-annual catch limit (sub-ACL) is 783 metric tons (mt). After adjusting for the 30 mt fixed gear set-aside and the 8% buffer (Area 1A closes at 92% of the sub-ACL), the Area 1A sub-ACL is 693 mt. There is no research-set-aside for 2025. Please note the New England Fishery Management Council is meeting on April 16, 2025 to consider potential recommendations to update the 2025-2027 specifications. If the Council recommends changes, the Commission's Atlantic Herring Management Board will meet on May 5, 2025 to consider the Council's recommendations.

In October 2024, the Board established the following seasonal allocations for the 2025 Area 1A sub-ACL: 72.8% available from June 1 – September 30 and 27.2% available from October 1 – December 31. Fishermen are prohibited from landing more than 2,000 pounds of Atlantic herring per day harvested from Area 1A until June 1, 2025.

Please contact Emilie Franke, Fishery Management Plan Coordinator, at 703.842.0716 or efranke@asmfc.org, for more information.
