ONGOING LEGISLATIVE PROXY

Eric Reid

315 Hamilton Allenton Road
North Kingstown, RI 02852
401.440.1885
EricReidri@gmail.com

Eric Reid, as an industry member, has devoted countless hours to the fisheries management process at the ASMFC, New England Fishery Management Council, and in various roles on the Mid-Atlantic Fishery Management Council as well. Eric was appointed as Susan's ongoing proxy in 2015 and always brings an important perspective to actions taken by these different management bodies. He also has a knack for being objective and always looks for a creative solution to allow for compromise among differing sides when possible.

Eric's expertise in the fishing industry allows him to offer insights that traditional fisheries managers cannot. He also understands the fisheries management system very well and has been able to find ways to move management forward on these important topics.

Eric's networks across the coast and abroad make him an invaluable member of the Rhode Island delegation. Eric is always able to connect with state partners up and down the coast on important topics to let them know where RI stands on issues. He can determine the important aspects of these issues for the other states, which he brings back to the RI team for consideration. This allows Eric to synthesize information directly from industry members in various states, as well as glean perspectives from our partner state and federal agencies.

Ech12@cornell.edu

Emerson Hasbrouck is a Senior Natural Resources Specialist, and former Marine Program Director, with Cornell University Cooperative Extension's Marine Program based at the Cornell Cooperative Extension offices of Suffolk County, Riverhead, NY. No stranger to the fisheries management arena he has worked with New York's fishing industry for over 40 years. The Marine Program is known and respected nationally and internationally for its mission to protect the waters and marine resources of Long Island. Emerson has been with the Marine Program for more than three decades and previously worked for the National Marine Fisheries Service. He was appointed as the Governor's Appointee Commissioner in March 2014.

Emerson plans, develops and implements extension programs related to the effective conservation and utilization of New York's marine and natural resources. These include fisheries data, fisheries management, and fisheries economic development for New York's commercial and recreational fishing industries as well as the businesses that support these industries. He conducts applied cooperative research programs and demonstration projects that help address critical fisheries and natural resource issues for the Mid-Atlantic/Southern New England areas and works with fishermen from Massachusetts to New Jersey. Over the past decade Emerson has been focusing on conservation engineering gear technology in cooperation with the fishing industry to develop gear modifications and fishing practices that reduce the bycatch of species of concern while allowing important viable fisheries to continue at a sustained level.

Emerson received his MS in Marine Science/Fisheries Management from the State University of New York at Stony Brook, and his BS in Marine Science from Southampton College of Long Island University.

GOVERNOR'S APPOINTEE COMMISSIONER

Gary Jennings

American Sportfishing Association, Keep Florida Fishing

6514 Sawyer Shores Lane

Windermere, FL 34786

407.719.2970

GJennings@asafishing.org

Gary Jennings is the Director of Keep Florida Fishing, an initiative of the American Sportfishing Association. The mission of Keep Florida Fishing is to ensure that Floridians and those visiting the state have clean waters, abundant fisheries and access to both. He was appointed by Florida Governor Ron DeSantis as an ASMFC Governor's Appointee Commissioner in May 2022.

Gary graduated from Florida State University with BS degrees in Human Resource Management and Hospitality Administration. He spent fourteen years working with the Walt Disney World Company and Hilton Hotels before he began working in the recreational fishing industry. His first stop was as a Regional Director for CCA Florida, then as publisher of *Fly Fishing in Saltwaters* magazine and finally as general manager of Hell's Bay Boatworks before he began working with the American Sportfishing Association in 2015. His varied experience gives him the ability to understand how fisheries management decisions impact a wide cross section of stakeholders.

Throughout his industry work experience, Gary has focused on engaging the recreational fishing community to actively participate in fisheries management. He believes a cooperative management approach with industry involvement promotes positive outcomes for sustainable fishing and access. Gary actively participates in the Florida Keys National Marine Sanctuary Advisory Council as the alternate recreational fishing representative, Florida Fish and Wildlife Commission Aquatic Plant Management Technical Advisory Group, the Florida DEP's Southeast

Coral Reef Initiative as a recreational representative and was a member of the University of Florida/Florida Department of Environmental Protection Coral Reef Fishing Stakeholder Group.

In his free time, Gary enjoys fishing, turkey hunting and flying his 1945 Piper J3 Cub floatplane.
